

JENNIFER PERRY

COACHING SPECIALTY/PHILOSOPHY

I approach each skater trying to find out that person's individual skating goals and help them to achieve them whether it is to just be able to navigate a skating rink successfully or launch a serious campaign in all levels of ice hockey or figure skating. Teaching professionally for over 40 years, I have enjoyed watching the many life altering success stories of my students who have gone on to collegiate and professional careers. There is a place in skating for anyone who aspires to try it. I enjoy helping people realize their skating aspirations.
