

KATHY BIRD

COACHING SPECIALTY/PHILOSOPHY

It's often been said, if you love what you do you never work a day in your life. I love ice skating. My greatest joy comes from sharing that love for this amazing sport with my students. Whether your goal is to skate across the ice alone or to stand on an Olympic podium, it all starts with your first push and glide.

My teaching philosophy has always been to inspire confidence by making each day a learning experience. Teaching my students a strong technical foundation allows them to set and achieve their skating goals while developing life skills that help them become well prepared for the challenge ahead.

Happy Skating!
