

## TAYLOR KOZE

### COACHING SPECIALTY/PHILOSOPHY

I am one of two sons of an adept figure skater turned hockey power skating phenom (Jennifer Perry), and have been skating since the young age of two. I grew up demonstrating, instructing, and through osmosis, have learned how to teach and coach the youth and possess a deep understanding of ice skating, and how the ice, blades, body & mind integrate. I wish to give athletes the gifts and skills I have learned through a lifetime of being on the ice and at the rink.
